Re: Central Steel Drum
Remedial Investigation Workplan

Dear Mr. Bernstein:

As we discussed last Friday, I have attached an original and two (2) copies of the Remedial Investigation Workplan (RIW) prepared for the referenced site. The RIW includes the estimated cost and schedule for the program.

As discussed, your letter of June 25, 1993 incorrectly states that CSD has not submitted a NJPDES Discharge to Surface Water Permit application for the facility. CSD submitted the required application to the Department on April 12, 1991. The Department confirmed the receipt of the required application via correspondence dated May 30, 1991 from the Division of Water Resources. I have included an additional copy of the NJPDES Permit application which was previously submitted.

Should you have any questions regarding the RIW or the NJPDES permit application, please give me a call at your convenience.

Yours truly,

Joseph M. Sorge
President
